

# Non-Coastal Zone Film Permit Type by Number of Days

Timeframe - the number of film days allowed out of 180 days according to NCZO Section 8107-11.2.3

There are two types of film permits that productions can apply for: over-the-counter film permits and discretionary permits which are subject to an environmental review. For more information on discretionary permits, review the [discretionary permit](#) process. The over-the-counter film permits can have a maximum of 90 film days out of 180 days in the Non-Coastal Zone.

**Filming Activity** – All uses, structures and activities related to the production of motion pictures, television programming music and corporate videos, advertisements, and commercial still photography. Said activities include, but are not limited to, preparation, filming, and strike time, and the ancillary functions accessory thereto. (Non-Coastal Zoning Ordinance definition)

**Waivers** – signed approval from 50% + 1 of impacted residents. Radius from filming activity of impacted residents determined by the Non-Coastal Zoning Ordinance
