HISTORY

The site was operated by the V.C.Public Works. In early 1986, all refuse was subexcavated,
removed, and the area was backfilled and compacted with onsite and import fill on parcel #644-
0-140-415. No refuse documented during construction of adjacent flood control channel. The
onsite material consisted of mostly soil with minor amounts of inert materials such as glass
fragments, concrete, asphalt, brick and gravel, and detectable concentrations of oil and grease.
