

## Federal and State Listed Species with CNDDDB Recorded Occurrences in and near Ventura County

The following tables list federal and state listed species occurring in Ventura County and within ten miles of Ventura County's borders. This list was compiled from the California Natural Diversity Database (**January 2010**), where occurrences were recorded. Because observed occurrences may not have been recorded in the CNDDDB, this list is not comprehensive, and other listed species may occur within Ventura County.

**Note:** County = County in which species was observed. If not observed in Ventura County, then observation was located within 10 miles of the County's borders. (VEN – Ventura, LAX – Los Angeles, KRN – Kern, SLO – San Luis Obispo, SBA – Santa Barbara)
