

Planning Director Staff Report Hearing on March 21, 2024

County of Ventura • Resource Management Agency

800 S. Victoria Avenue, Ventura, CA 93009 • (805) 654-2478 • www.vcrma.org/divisions/planning

WIRELESS COMMUNICATION FACILITY (WCF) – SV80974A T-MOBILE AERA ENERGY, MINOR MODIFICATION TO CONDITIONAL USE PERMIT (CUP), CASE NO. PL24-0001

A. PROJECT INFORMATION

1. **Request:** The applicant requests approval of a Minor Modification of Conditional Use Permit (CUP) Case No. PL13-0126 to authorize the continued operation and maintenance of an existing WCF for a 10-year period (Case No. PL24-0001).
2. **Applicant:** T-Mobile West LLC, C/O John Beke, 3257 E. Guasti Road, Suite 200, Ontario, CA 91761
3. **Property Owner:** Aera Energy LLC, PO Box 11164, Bakersfield, CA 93389-1164
4. **Applicant's Representative:** Network Connex, C/O Lynda McClung, 655 N. Central Ave. Suite 1520, Glendale, CA 91203
5. **Decision-Making Authority:** Pursuant to the Ventura County Non-Coastal Zoning Ordinance (NCZO) (Section 8105-4), the Planning Director is the decision-maker for the requested CUP.
6. **Project Site Size, Location, and Parcel Number:** The 256.47-acre project site is located at 1800 School Canyon Road in hilly, open space east of Ventura Avenue, near the city of Ventura, in the unincorporated area of Ventura County. The Tax Assessor's parcel number for the parcel that constitutes the project site is 064-0-010-015 (Exhibit 2).
7. **Project Site Land Use and Zoning Designations (Exhibit 2):**
 - a. Countywide General Plan Land Use Map Designation: Open Space
 - c. Zoning Designation: OS-160 ac (Open Space, 160-acre minimum lot size)
8. **Adjacent Zoning and Land Uses/Development (Exhibit 2):**

Location in Relation to the Project Site	Zoning	Land Uses/Development
North	AE-40 ac (Agricultural Exclusive, 40-acre minimum lot size), OS-160 ac (Open Space, 160-acre minimum lot size)	Open Space

Location in Relation to the Project Site	Zoning	Land Uses/Development
East	AE-40 ac, OS-160 ac	Oil and Gas Production
South	AE-40 ac	Oil and Gas Production
West	OS-160 ac, M3-10,000 sq ft (General Industrial, 10,000 square feet minimum lot size)	Oil and Gas Production

9. History: The project site is primarily developed for oil production, and CUP 35 was first approved in 1948 for this use. Aera Energy LLC is the current holder of this permit. On February 18, 2014, the planning director approved CUP Case No. PL13-0126 authorizing the use, operation, and maintenance of an existing wireless communication facility (WCF) owned and operated by Sprint-Nextel, for a 10-year period. After this CUP was inaugurated, planning staff issued a Zoning Clearance for technological upgrades (Case No. ZC14-1160). In 2021, T-Mobile replaced Sprint as the wireless carrier associated with the permit. Planning staff issued a Zoning Clearance for equipment swaps associated with this change of permittee (Case No. ZC21-0510).

On January 5, 2024, an application was submitted to the County Planning Division requesting that a Minor Modification of CUP Case No. PL13-0126 be granted to authorize use, operation, and maintenance of this existing WCF for another 10-year period.

10. Project Description: The applicant requests a minor modification to CUP Case No. PL13-0126 be granted to authorize the continued use, operation, and maintenance of a WCF for a 10-year period. The existing WCF is designed as a stealth facility comprised of nine approximately 10-foot-tall panel antenna mounts, six panel antennas, six Remote Radio Units (RRUs), and an approximately 100 square-foot equipment shelter.

The WCF is unmanned, except for occasional periodic maintenance visits, and operates 24 hours per day. The WCF does not require water to operate. The site is accessed by a private road. No changes are proposed. (Exhibit 3).

B. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) COMPLIANCE

Pursuant to CEQA (Public Resources Code Section 21000 et seq.) and the CEQA Guidelines (Title 14, California Code of Regulations, Division 6, Chapter 3, Section 15000 et seq.), the proposed project is subject to environmental review.

The State Legislature through the Secretary for Resources has found that certain classes of projects are exempt from CEQA environmental impact review because they do not have a significant effect on the environment. These projects are declared to be categorically exempt from the requirement for the preparation of environmental impact documents. The project includes the continued operation of an existing WCF with no

proposed operational or physical changes. Therefore, the proposed project qualifies for a Class 1 Categorical Exemption pursuant to Section 15301 (Existing Facilities) of the CEQA Guidelines. Further, the project will not trigger any of the exceptions to the exemptions listed under CEQA Guidelines Section 15300.2 and, therefore, no further environmental review is required.

Therefore, this project is categorically exempt pursuant to Section 15301 of the CEQA Guidelines.

C. CONSISTENCY WITH THE GENERAL PLAN

The proposed project has been analyzed and determined to be consistent with all applicable General Plan policies. A consistency analysis which evaluates the project's consistency with the policies of the General Plan is included as Exhibit 4 of this Staff Report.

D. ZONING ORDINANCE COMPLIANCE

The proposed project is subject to the requirements of the Ventura County NCZO.

Pursuant to the requirements of the Ventura County NCZO (Section 8105-4) the proposed use is allowed in the *OS-160 ac* zone district with the granting of a CUP. Upon the granting of the CUP, the proposed project would be in compliance with the Ventura County NCZO.

The proposed project includes the continuation of an existing telecommunications facility that is subject to the development standards of the Ventura County NCZO (Section 8106-1.1) Table 2 lists the applicable development standards and a description of whether the proposed project complies with the development standards.

Table 2 – Development Standards Consistency Analysis

Type of Requirement	Zoning Ordinance Requirement	Complies?
Minimum Lot Area (Gross)	160 acres	Yes
Maximum Percentage of Building Coverage	5 %	Yes
Front Setback	20 feet	Yes
Side Setback	10 feet	Yes
Rear Setback	15 feet	Yes
Maximum Building Height	35 feet	Yes

The proposed *WCF* is subject to the special use standards of the Ventura County NCZO (Section 8107-45). Table 3 lists the applicable special use standard and a description of whether the proposed project complies with the special use standards. This staff report includes site photos of the existing *WCF* (Exhibit 5).

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
<p>Section 8107-45.4 (a), Partial and Full-Concealment Requirements:</p> <p>To minimize visual impacts, a wireless communication facility shall be designed as a stealth facility or building-concealed facility. A wireless communication facility may be designed as a non-stealth facility only if it meets standards provided in Sec. 8107-45.4(b) below.</p> <p>Sec. 8107-45.4(b) Exceptions to Stealth and Building-Concealed Facilities: A non-stealth facility may be permitted when the applicant demonstrates that the project location and design meet one or more of the following criteria:</p> <ul style="list-style-type: none"> (1) The facility is not prominently visible from a public viewpoint and could not be prominently visible from a public viewpoint following a Section 6409(a) Modification. This standard may be achieved by blending the facility into its surroundings as defined in Sec. 8107-45.4(c); or (2) The non-stealth facility is prominently visible from a public viewpoint but meets one or more of the following criteria: <ul style="list-style-type: none"> (a) It is located on a ridgeline and meets the requirements in Sec. 8107-45.4(l); or (b) The minimum height required for adequate service, coverage, or capacity area cannot be achieved with one or more stealth facilities (see Sec. 8107-45.4(f)(4)); or (c) It is used solely for the provision of public safety and the decision-making authority waives this development standard pursuant to Sec. 8107-45.2.4. 	<p>Yes, the WCF is designed with low-profile (10-foot max height) characteristics and painted to blend with the surrounding area. Furthermore, the site is located on a hillside east of Ventura Avenue and not prominently visible from public view.</p>
<p>Section 8107-45.4 (c), Making Wireless Communication Facilities Compatible with the Existing Setting:</p> <p>To the extent feasible, all wireless communication facilities shall be located and designed to be compatible with the existing setting as follows:</p> <ul style="list-style-type: none"> (1) Location: Facilities shall be located in areas where existing topography, vegetation, buildings, or structures effectively screen and/or camouflage the proposed facility; and (2) Facility Design: The facility shall be designed (i.e. size, shape, color, and materials) to blend in with the existing topography, vegetation, buildings, and structures on the project site as well as its existing 	<p>Yes, the existing WCF is located among oil production facilities and painted to blend with this setting. The topography shields the facility from view.</p>

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
setting.	
<p>Section 8107-45.4 (d), Preferred Wireless Communication Facility Locations:</p> <p>To the extent feasible, and in the following order of priority, new wireless communication facilities shall be sited in the following locations:</p> <ol style="list-style-type: none"> (1) On an existing wireless communication facility with adequate height and structure to accommodate additional wireless communication facilities (see Sec. 8107-45.6). (2) Flush-mounted on an existing structure, pole, or building in the AE and OS zones. (3) Where the wireless communication facility is not prominently visible from a public viewpoint. (4) Within an area zoned Industrial. (5) Near existing public or private access roads. (6) On or near the same site as an existing wireless communication facility when visual or other environmental impacts can be mitigated to a level of less than significant under CEQA and when such “clustering” of facilities is consistent with the applicable Area Plan. <p>Section 8107-45.4 (e), Non-Preferred Wireless Communication Facility Locations:</p> <p>To the extent feasible, and in the following order of priority, new wireless communication facilities shall not be sited in the following locations:</p> <ol style="list-style-type: none"> (1) Within an area zoned Urban Residential (2) Silhouetted on the top of ridgelines on land designated as Open Space under the General Plan when prominently visible from public viewpoints. Where the wireless communication facility is not prominently visible from a public viewpoint. (3) On a structure, site or in a district designated as a local, state, or federal historical landmark (see Sec. 8107-45.4(j)). (4) Within an area zoned Scenic Resource Protection Overlay (see Sec. 8107-45.4(m)). (5) Within environmentally sensitive areas (see Sec. 8107-45.4(k)). 	<p>Yes, the WCF is an existing structure located on a hillside east of Ventura Avenue. Concealment measures and limited visibility from public view justify the current location.</p>
<p>Section 8107-45.4 (f) Height for Stealth Facilities:</p> <p>Stealth facilities shall meet the definition in Sec. 8102-0 and the applicable height limits prescribed in Section 8107-45.4.</p>	<p>Yes, the WCF panel antennas are 10-foot max height from the ground and sized to provide adequate coverage to</p>

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
<p>(2) Minimizing Visual Impacts: The height of a wireless communication facility shall be limited to what is necessary to provide adequate service or coverage.</p> <p>(4) a. The maximum allowable height of a faux structure shall be the height limits in Table 1 below, or the average height of representative structures commonly found in the local setting, whichever is less.</p>	<p>the area. No height changes are proposed.</p>
<p>Section 8107-45.4 (g)(1)(2), Setbacks:</p> <p>(1) All wireless communication facilities shall comply with the required minimum front, side, and rear yard setbacks for the zone in which the site is located. No portion of an antenna array shall extend beyond the property lines.</p> <p>(2) Ground-mounted wireless communication facilities shall be set back a distance equal to the total facility height or 50 feet, whichever is greater, from any offsite dwelling unit.</p>	<p>Yes, the WCF meets the front, side, and rear yard setbacks for the OS zone. There are no offsite dwelling units within 50-feet of the WCF.</p>
<p>Section 8107-45.4 (h), Retention of Concealment Elements:</p> <p>No modification to an existing wireless communication facility shall defeat concealment elements of the permitted facility. Concealment elements are defeated if any of the following occur:</p> <p>(1) A stealth facility is modified to such a degree that it results in a non-stealth facility; or</p> <p>(2) The stealth facility no longer meets the applicable development standards for stealth facilities in Sec. 8107-45.4; or</p> <p>(3) Equipment and antennas are no longer concealed by the permitted stealth design features; or</p> <p>(4) Proposed modifications to a stealth facility, designed to represent a commonly found element in the environment or community (such as a tree, rock, or building), result in a facility that no longer resembles the commonly found element due to its modified height, size, or design</p>	<p>Yes, this is an existing WCF. There are no proposed changes to the structure or site which would impact the concealment elements.</p>
<p>Section 8107-45.4 (j). Historical Landmarks/Sites of Merit:</p> <p>A wireless communication facility shall not be constructed, placed, or installed on a structure, site or district designated</p>	<p>Yes, the WCF is not constructed or installed on a structure, site, or district designated by a federal, state, or county agency as a historical landmark or site of merit.</p>

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
<p>by a federal, state, or County agency as an historical landmark or site of merit unless that facility is designed to meet the Secretary of the Interior (SOI) Standards. If the facility does not meet the SOI standards, then the Cultural Heritage Board must determine that the proposed facility will have no significant, adverse effect on the historical resource.</p>	
<p>Section 8107-45.4 (k)(1), Environmentally Sensitive Areas:</p> <p>All wireless communication facilities and their accessory equipment shall be sited and designed to avoid or minimize impacts to habitat for special status species, sensitive plant communities, migratory birds, waters and wetlands, riparian habitat, and other environmentally sensitive areas as determined by the County's Initial Study Assessment Guidelines.</p>	<p>Yes, the existing WCF is designed for minimum impact to sensitive species and no changes are proposed.</p>
<p>Section 8107-45.4 (n), Accessory Equipment:</p> <p>All accessory equipment associated with the operation of a wireless communication facility shall be located and screened to prevent the facility from being prominently visible from a public viewpoint to the maximum extent feasible.</p>	<p>The equipment shelter is shielded by remoteness and topography. Therefore, it is not prominently visible from any public viewpoint.</p>
<p>Section 8107-45.4 (o), Colors and Materials:</p> <p>All wireless communication facilities shall use materials and colors that blend in with the natural or man-made surroundings. Highly reflective materials are prohibited.</p>	<p>Yes. The WCF is designed with low-profile, panel antennas. All colors and materials blend with the surroundings. There are no reflective materials.</p>
<p>Section 8107-45.4 (p), Noise:</p> <p>All wireless communication facilities shall be operated and maintained to comply at all times with the noise standards outlined in Section 2.16 of the Ventura County General Plan Goals, Policies, and Programs.</p>	<p>Yes. The WCF must be operated and maintained to comply with the Ventura County noise standards set forth in General Plan Policy HAZ 9.2 Noise Compatibility Standards.</p>
<p>Section 8107-45.4 (q), Landscaping and Screening:</p> <p>The permittee shall plant, irrigate and maintain additional landscaping during the life of the permit when landscaping is deemed necessary to screen the wireless communication facility from being prominently visible from a public viewpoint. New landscaping shall not incorporate any invasive species or watch species, as defined by the California Invasive Plant Council (Cal-IPC) and shall be in conformance with Section 8106-8.2.5. (AM. ORD. 4577 – 3/9/21)</p>	<p>Yes. No new landscaping is proposed. The WCF does not require additional screening as it is not prominently visible from public view.</p>

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
<p>Section 8107-45.4 (r), Security:</p> <p>(1) Each facility shall be designed to prevent unauthorized access, climbing, vandalism, graffiti and other conditions that would result in hazardous situations or visual blight. The approving authority may require the provision of warning signs, fencing, anti-climbing devices, or other techniques to prevent unauthorized access and vandalism.</p> <p>All fences shall be constructed of materials and colors that blend in with the existing setting. The use of a chain link fence is prohibited within areas designated as Urban and Existing Community in the General Plan, and areas that are prominently visible from a public viewpoint, unless the chain link fence is fully screened.</p>	<p>Yes. The WCF equipment is located far from public access. Warning signage is placed around the facility to deter access.</p>
<p>Section 8107-45.4 (s), Lighting:</p> <p>(1) No facility may be illuminated unless specifically required by the FAA or other government agency.</p> <p>(2) Any necessary security lighting shall be down-shielded and controlled to minimize glare or light levels directed at adjacent properties and to minimize impacts to wildlife.</p>	<p>Yes, the WCF has no lighting.</p>
<p>Section 8107-45.4 (t), Signage:</p> <p>A permanent, weather-proof identification sign, subject to Planning Director approval, shall be displayed in a prominent location such as on the gate or fence surrounding the wireless communication facility or directly on the facility. The sign must identify the facility operator(s) and type of use, provide the operator’s address, FCC-adopted standards, and specify a 24-hour telephone number at which the operator can be reached during an emergency.</p>	<p>Yes, the site includes signage indicating all necessary information related to the equipment for the operation of the facility.</p>
<p>Section 8107-45.4 (u), Access Roads:</p> <p>(1) Where feasible, wireless communication facility sites shall be accessed by existing public or private access roads and easements.</p> <p>(2) Wireless communication facility sites shall minimize the construction of new access roads, particularly when such roads are located in areas with steep slopes, agricultural resources, or biological resources as determined by the County’s Initial Study Assessment Guidelines. When required, new access roads shall be designed to meet standards</p>	<p>Yes, the site is accessed by an existing, private road that connects to Barranca Road and E Shell Road.</p>

Table 3 – Special Use Standards Consistency Analysis

Special Use Standard	Complies?
established by the Ventura County Public Works Agency and Ventura County Fire Protection District.	

E. CUP FINDINGS AND SUPPORTING EVIDENCE

The Planning Director must make certain findings in order to grant a CUP pursuant to Section 8111-1.2.1.1a of the Ventura County NCZO. The ability to make the required findings is evaluated below.

- 1. The proposed development is consistent with the intent and provisions of the County's General Plan and of Division 8, Chapters 1 and 2, of the Ventura County Ordinance Code [Section 8111-1.2.1.1a.a].**

Based on the information and analysis presented in Section D and Exhibit 5 of this staff report, the finding that the proposed development is consistent with the intent and provisions of the County's General Plan and of Division 8, Chapters 1 and 2, of the Ventura County Ordinance Code can be made.

- 2. The proposed development is compatible with the character of surrounding, legally established development [Section 8111-1.2.1.1a.b].**

The project involves the continued operation of an existing, unmanned WCF located on a tract of hilly, open-space land east of Ventura Avenue. The facility is painted to blend in with the site surroundings, and low-profile, stealth antennae blend with the surrounding landscape and oil-related uses. Remoteness and topography mask the facility from public view. No new effects on the surrounding land uses have been identified.

Based on the discussion above, this finding can be made.

- 3. The proposed development would not be obnoxious or harmful, or impair the utility of neighboring property or uses [Section 8111-1.2.1.1a.c].**

The WCF does not generate substantial noise or pose a health threat. No adverse effect on neighboring property or uses has been identified. Additionally, the project is conditioned (Exhibit 6, Conditions 14, 15) to identify a contact person for the timely resolution of complaints.

Based on the discussion above, this finding can be made.

- 4. The proposed development would not be detrimental to the public interest, health, safety, convenience, or welfare [Section 8111-1.2.1.1a.d].**

The project does not include any expansion or changes to the existing facility. No adverse effect on the use of the surrounding properties has been identified. In any case, the Permittee will be required to identify a contact person for the timely resolution of complaints and the reporting of all major incidents so as to prevent a recurrence of such an incident (Exhibit 6, Condition 15). Finally, the project will include conditions of approval to ensure that the proposed use, storage, and handling of hazardous materials will be in conformance with all applicable County and state regulations (Exhibit 6, Condition 20).

Based on the discussion above, this finding can be made.

5. The proposed development, if allowed by a Conditional Use Permit, is compatible with existing and potential land uses in the general area where the development is to be located [Section 8111-1.2.1.1a.e].

The existing WCF is compatible with the surrounding open space land use. Designed for semi-concealment, the WCF blends with nearby oil facilities and is to match these surroundings. Remoteness masks the facility from public view. No new effects on existing or potential land uses would occur with the issuance of this CUP.

Based on the discussion above, this finding can be made.

6. The proposed development will occur on a legal lot [Section 8111-1.2.1.1a.f].

The subject legal lot is a combination of APNs; 064-0-010-015 and 064-0-010-025, as created by a grant deed recorded on September 19, 1923 in Book 2847, Page 262 of Miscellaneous Records, in the office of the County Recorder, County of Ventura, in the State of California.

Based on the discussion above, this finding can be made.

7. The proposed development is approved in accordance with the California Environmental Quality Act and all other applicable laws [Section 8111-1.2.1.1a.g].

As discussed in Section B (above), the CUP involves the continued use of an existing WCF on the subject property. The project qualifies for a Class 1 Categorical Exemption pursuant to Section 15301 (Existing Facilities) of the CEQA Guidelines.

Based on the discussion above, this finding can be made.

F. PLANNING DIRECTOR HEARING NOTICE, PUBLIC COMMENTS, AND JURISDICTIONAL COMMENTS

The Planning Division provided public notice regarding the Planning hearing in accordance with the Government Code (Section 65091), Ventura County NCZO (Section 8111-3.1). On March 8, 2024, the Planning Division mailed notice to owners of property within 300 of the property on which the project site is located. On March 8, 2024, the Planning Division placed a legal ad in the *Ventura County Star*.

H. RECOMMENDED ACTIONS

Based upon the analysis and information provided above, Planning Division Staff recommends that the Planning Director take the following actions:

1. **CERTIFY** that the Planning Director has reviewed and considered this staff report and all exhibits thereto and has considered all comments received during the public comment process.
2. **FIND** that this project is categorically exempt from CEQA pursuant to Section 15301 (existing facilities) of the CEQA Guidelines.
3. **MAKE** the required findings to approve a Minor Modification of CUP application Case No. PL24-0001 pursuant to [Section 8111-1.2.1.1 of the Ventura County NCZO, based on the substantial evidence presented in Section E of this staff report and the entire record.
4. **APPROVE** Minor Modification of CUP application case No. PL24-0001, subject to the conditions of approval (Exhibit 6).
5. **SPECIFY** that the Clerk of the Planning Division is the custodian, and 800 S. Victoria Avenue, Ventura, CA 93009 is the location, of the documents and materials that constitute the record of proceedings upon which this decision is based.

The decision of the Planning Director is final unless appealed to the Planning Commission within 10 calendar days after the permit has been approved, conditionally approved, or denied (or on the following workday if the 10th day falls on a weekend or holiday). Any aggrieved person may file an appeal of the decision with the Planning Division. The Planning Division shall then set a hearing date before the Planning Commission to review the matter at the earliest convenient date.

If you have any questions concerning the information presented above, please contact Benjamin Reinert at (805) 654-2466 or benjamin.reinert@ventura.org.

Exhibit 4 – General Plan Consistency Analysis

County of Ventura • Resource Management Agency • Planning Division

800 S. Victoria Avenue, Ventura, CA 93009-1740 • (805) 654-2478 • vcrma.org/divisions/planning

CONSISTENCY WITH THE GENERAL PLAN FOR SV80974A T-MOBILE AERA ENERGY WIRELESS COMMUNICATION FACILITY (WCF) (CASE NO. PL24-0001)

The Ventura County General Plan *Goals, Policies and Programs* (2020, page 1-1) states:

California law requires that every county and city adopt a general plan “for the physical development of the county or city, and of any land outside its boundaries which in the planning agency’s judgment bears relation to its planning.” (Gov. Code, § 65300.) A general plan serves as the jurisdiction’s “constitution” or “blueprint” for future decisions concerning a variety of issues including land use, health and safety, and resource conservation. All area plans, specific plans subdivision, public works projects, and zoning decisions must be consistent with the direction provided in the County’s General Plan.

Furthermore, the Ventura County Non-Coastal Zoning Ordinance (NCZO) (Section 8111-1.2.1.1.a) states that in order to be approved, a project must be found consistent with all applicable policies of the Ventura County General Plan.

The proposed project would modify Conditional Use Permit (CUP) Case No. PL13-0126, as modified by Minor Modification of CUP, Case No. PL24-0001 for the continued use, operation, and maintenance of a WCF for a 10-year period.

Evaluated below is the consistency of the proposed project with the applicable policies of the General Plan *Goals, Policies and Programs*, as well as the Ojai Valley Area Plan *Goals and Policies*.

General Plan

- COS-3.5 Ridgeline and Hilltop Preservation:** *The County shall ensure that ridgelines and major hilltops remain undeveloped, and that discretionary development is sited and designed to remain below significant ridgelines, except as required for communication or similar facilities.*

The existing WCF is on a hillside east of Ventura Avenue. This WCF was designed with low-profile, stealth characteristics and painted to blend into the surrounding area. The facility was selected for optimal provision of communication services to the surrounding area.

Based on the discussion above, the proposed project is consistent with General Plan Policy COS-3.5.

County of Ventura
Planning Director Hearing
Case No. PL24-0001
March 21, 2024
Exhibit 4 – General Plan Consistency Analysis

- 2. HAZ-1.1 Fire Prevention Design and Practices:** *The County shall continue to require development to incorporate design measures that enhance fire protection in areas of high fire risk. This shall include but is not limited to incorporation of fire-resistant structural design, use of fire-resistant landscaping, and fuel modification around the perimeter of structures.*

HAZ-1.2 Defensible Space Clear Zones: *The County shall require adherence to defensible space standards, or vegetation “clear zones,” for all existing and new structures in areas that are designated as Hazardous Fire Areas by the Ventura County Fire Protection District and High Fire Hazard Severity Zones by the California Department of Forestry and Fire Protection.*

The project site is in the hills east of Ventura Avenue, an area of high fire risk. The Ventura County Fire Protection District reviewed the proposed project and conditioned approval based on grass and brush clearance around structures and along access roads to abate the fire hazard (Exhibit 6, Condition No. 21).

Based on the discussion above, the project is consistent with General Plan Policies HAZ-1.1 and HAZ-1.2.

- 3. HAZ-5.2 Hazardous Materials and Waste Management Facilities:** *The County shall require discretionary development involving facilities and operations which may potentially utilize, store, and/or generate hazardous materials and/or wastes be located in areas that would not expose the public to a significant risk of injury, loss of life, or property damage and would not disproportionately impact Designated Disadvantaged Communities.*

The Resource Management Agency, Environmental Health Division (EHD) reviewed the proposed project. Based on EHD’s recommendations, the CUP for the WCF would be subject to a condition of approval to require that the storage, handling, and disposal of any potentially hazardous material shall be in compliance with applicable state regulations (Exhibit 6, Condition No. 19).

Based on the discussion above, the project is consistent with General Plan Policy HAZ-5.2.

- 4. WR-1.2 Watershed Planning:** *The County shall consider the location of a discretionary project within a watershed to determine whether or not it could negatively impact a water source. As part of discretionary project review, the County shall also consider local watershed management plans when considering land use development.*

The proposed project does not involve development or uses that could affect the hydrological conditions of the watershed in which the project site is located.

Based on the discussion above, the project is consistent with General Plan Policy WR-1.2.

- 5. PFS-1.1 Equitable Provision of Public Facilities and Services:** *The County shall require that facilities and services that are essential for public health and safety shall be equitably provided for all residents and businesses.*

PFS-7.1 Accessible Public Utilities: *The County shall work with utility companies and service providers to ensure that gas, electric, broadband, cellular mobile communications, cable television, and telephone utility transmission lines are located appropriately to provide for adequate services throughout the unincorporated area.*

PFS-7.5 Broadband Service Access: *The County shall encourage broadband service providers to expand service areas and provide high quality access to broadband (high-speed internet) and cellular mobile communications services to residents and businesses, including unserved and underserved areas.*

The WCF will continue to provide service throughout the unincorporated Ventura area, including access to high quality cellular mobile communications. The continued use of the facility ensures that residents and businesses in the coverage area receive high quality access.

Based on the discussion above, the project is consistent with General Plan Policies PFS-1.1, PFS-7.1, and PFS-7.5.

- 6. PFS-11.4 Emergency Vehicles Access:** *The County shall require all discretionary development to provide, and existing development to maintain, adequate access for emergency vehicles, including two points of access for subdivisions and multifamily developments.*

The proposed project will be subject to conditions of approval that the Ventura County Fire Protection District recommends (Conditions No. 21) in order to provide adequate access to the project site.

Based on the discussion above, the project is consistent with General Plan Policy PFS-11.4.

- 7. LU-16.1 Community Character and Quality of Life:** *The County shall encourage discretionary development to be designed to maintain the distinctive character of unincorporated communities, to ensure adequate provision of public facilities and services, and to be compatible with neighboring uses.*

The existing WCF is on land zoned OS and uses stealth characteristics to limit visual interference with the surrounding area. The facility provides essential

wireless telecommunication coverage to the area. No new conflicts or impacts are introduced with the continued use of this WCF. The site is accessed by a private, dirt road. No water is required.

Based on the discussion above, the project is consistent with General Plan Policy LU-16.1.

EXHIBIT 6

DRAFT CONDITIONS OF APPROVAL FOR CONDITIONAL USE PERMIT (CUP) 35 AS MODIFIED BY MINOR MODIFICATION CASE NO. PL13-0126 AND MINOR MODIFICATION CASE NO. PL24-0001

THESE CONDITIONS OF APPROVAL SUPERSEDE ALL PREVIOUSLY
APPROVED CONDITIONS OF APPROVAL

RESOURCE MANAGEMENT AGENCY (RMA) CONDITIONS

I. Planning Division (PL) Conditions

1. Project Description

This Minor Modification of a Conditional Use Permit (CUP) Case No. PL24-0001 is based on and limited to compliance with the project description stated in this condition below, Exhibits 2, 3, 4, 5 and 6 of the Planning Director hearing on March 21, 2024, and conditions of approval set forth below. Together, these conditions and documents describe the "Project." Any deviations from the Project must first be reviewed and approved by the County in order to determine if the Project deviations conform to the Project as approved. Project deviations may require Planning Director approval for changes to the permit or further California Environmental Quality Act (CEQA) environmental review, or both. Any Project deviation that is implemented without requisite County review and approval(s) may constitute a violation of the conditions of this permit and applicable law.

The Project description is as follows:

The applicant requests a minor modification of a CUP to authorize the continued use, operation, and maintenance of an existing Wireless Communication Facility (WCF) for a 10-year period. The existing facility is designed as a stealth facility comprised of nine approximately 10-foot-tall panel antenna mounts, six panel antennas, six remote radio units (RRUs), and an approximately 100 square-foot equipment shelter.

The WCF is unmanned, except for occasional periodic maintenance visits, and operates 24 hours per day. The WCF does not require water to operate. The site is accessed by a private road. No changes are proposed with this renewal. (Exhibit 3).

The use and maintenance of the property, as well as the size, shape, arrangement, and location of structures, shall conform to the project description above, and all approved County land use hearing exhibits in support of the Project and conditions of approval below.

2. Site Maintenance

Purpose: To ensure that the Project site is maintained in a neat and orderly manner so as not to create any hazardous or unsightly conditions which are visible from outside of the Project site.

Requirement: The Permittee shall maintain the Project site in a neat and orderly manner, and in compliance with the Project description set forth in Condition of Approval No. 1. Only equipment and/or materials which the Planning Director determines to substantially comply with the Project description and approved site uses shall be stored on the site during the life of this permit.

Documentation: The Permittee shall maintain the Project site in compliance with Condition of Approval No. 1 and the approved plans for the Project.

Timing: The Permittee shall maintain the Project site in a neat and orderly manner and in compliance with Condition of Approval No. 1 throughout the life of the Project.

Monitoring and Reporting: The County Building Inspector, Public Works Agency Grading Inspector, Fire Marshall, and/or Planning Division staff has the authority to conduct periodic site inspections to ensure the Permittee's ongoing compliance with this condition consistent with the requirements of § 8114-3 of the Ventura County Non-Coastal Zoning Ordinance.

3. CUP Modification

Prior to undertaking any operational or construction-related activity which is not expressly described in these conditions, the Permittee shall first contact the Planning Director to determine if the proposed activity requires a modification of this CUP. The Planning Director may, at the Planning Director's sole discretion, require the Permittee to file a written and/or mapped description of the proposed activity to determine if a CUP modification is required. If a CUP modification is required, the modification shall be subject to:

- a. The modification approval standards of the Ventura County Ordinance Code in effect at the time the modification application is acted on by the Planning Director.
- b. Environmental review, as required pursuant to the California Environmental Quality Act (CEQA; California Public Resources Code, §§ 21000-21178) and the State CEQA Guidelines (California Code of Regulations, Title 14, Chapter 3, §§ 15000-15387), as amended from time to time.

4. Acceptance of Conditions and Schedule of Enforcement Responses

The Permittee's acceptance of this CUP and operations under this CUP shall constitute the Permittee's formal agreement to comply with all conditions of this CUP. Failure to abide by and comply with any condition for the granting of this CUP shall constitute

grounds for enforcement action provided in the Ventura County Non-Coastal Zoning Ordinance (Article 14), which include, but are not limited to, the following actions:

- a. Public reporting of violations to the Planning Commission and/or Board of Supervisors;
- b. Suspension of the permitted land uses (Condition No. 1);
- c. Modification of the CUP conditions listed herein;
- d. Recordation of a "Notice of Noncompliance" on the deed to the subject property;
- e. The imposition of civil administrative penalties; and/or
- f. Revocation of this CUP.

The Permittee is responsible for being aware of and complying with the CUP conditions and all applicable federal, state, and local laws and regulations.

5. Time Limits

a. Use Inauguration:

- (1) The approval decision for this CUP becomes effective upon the expiration of the 10 day appeal period following the approval decision, or when any appeals of the decision are finally resolved. Once the approval decision becomes effective, the Permittee must obtain a Zoning Clearance for Use Inauguration in order to initiate the land uses set forth in Condition No. 1.
- (2) This CUP shall expire and become null and void if the Permittee fails to obtain a Zoning Clearance for Use Inauguration within one from the date the approval decision of this CUP becomes effective. The Planning Director may grant a one year extension of time to the Permittee in order to obtain the Zoning Clearance for Use Inauguration if the Permittee can demonstrate to the satisfaction of the Planning Director that the Permittee has made a diligent effort to implement the Project, and the Permittee has requested the time extension in writing at least 30 days prior to the one year expiration date.
- (3) Prior to the issuance of the Zoning Clearance for Use Inauguration, all fees and charges billed to that date by any County agency, as well as all fines, penalties, and sureties, must be paid or submitted in full. After issuance of the Zoning Clearance for Use Inauguration, any final billed processing fees must be paid within 30 days of the billing date or the County may revoke this CUP.

b. Permit Life or Operations Period:

This CUP will expire on March 31, 2034. The lack of additional notification of the expiration date provided by the County to the Permittee shall not constitute grounds to continue the uses that are authorized by this CUP after the CUP expiration date. The uses authorized by this CUP may continue after the CUP expiration date if:

- (1) The Permittee has filed a permit modification application pursuant to § 8111-6 of the Ventura County Non-Coastal Zoning Ordinance prior to March 17, 2034; and
- (2) The County decision-maker grants the requested modification.

The uses authorized by this CUP may continue during processing of a timely-filed modification application in accordance with § 8111-2.10 of the Ventura County Non-Coastal Zoning Ordinance.

6. Documentation of Compliance with Other Agencies' Requirements Related to this CUP

Purpose: To ensure compliance with and notification of federal, state, or local government regulatory agencies that have requirements that pertain to the project (Condition No. 1, above) that is the subject of this CUP.

Requirement: Upon the request of the Planning Director, the Permittee shall provide the Planning Division with documentation (e.g., copies of permits or agreements from other agencies, which are required pursuant to a condition of this CUP) to verify that the Permittee has obtained or satisfied all applicable federal, state, and local entitlements and conditions that pertain to the Project.

Documentation: The Permittee shall provide this documentation to Planning Division staff in the form that is acceptable to the agency issuing the entitlement or clearance, to be included in the Planning Division Project file.

Timing: Copies of all correspondence, reports, or information related to issues covered by this permit, which are received by the Permittee from, or sent by the Permittee to, other Federal, State, or local jurisdictions or agencies shall be provided to the Planning Division within 30 days of their receipt/issuance. The documentation shall be submitted to the Planning Division prior to the issuance of the Zoning Clearance for Use Inauguration or as dictated by the respective agency.

Monitoring and Reporting: The Planning Division shall maintain the documentation provided by the Permittee in the respective project file. If the federal, state, or local government regulatory agency prepares new documentation due to changes in the project or the other agency's requirements, the Permittee shall submit the new documentation within 30 days of receipt of the documentation from the other agency.

7. Notice of CUP Requirements and Retention of CUP Conditions on the Project Site

Purpose: To ensure full and proper notice of these CUP conditions affecting the use of the subject property.

Requirement: Unless otherwise required by the Planning Director, the Permittee shall notify, in writing, the Property Owner(s) of record, contractors, and all other parties and vendors who regularly conduct activities associated with the Project, of the pertinent conditions of this CUP.

Documentation: The Permittee shall maintain a current set of CUP conditions and exhibits at the project site.

Timing: Prior to issuance of a Zoning Clearance for Use Inauguration, and throughout the life of the Project.

Monitoring and Reporting: The Planning Division has the authority to conduct periodic site inspections to ensure ongoing compliance with this condition consistent with the requirements of § 8114-3 of the Ventura County Non-Coastal Zoning Ordinance.

8. Recorded Notice of Land Use Entitlement

Purpose: The Permittee shall record a “Notice of Land Use Entitlement” form and the conditions of this CUP with the deed for the subject property that notifies the current and future Property Owner(s) of the conditions of this CUP.

Requirement: The Permittee shall sign, have notarized, and record with the Office of the County Recorder, a “Notice of Land Use Entitlement” form furnished by the Planning Division and the conditions of this CUP, with the deed of the property that is subject to this CUP.

Documentation: Recorded “Notice of Land Use Entitlement” form and conditions of this CUP.

Timing: The Permittee shall record the “Notice of Land use Entitlement” form and conditions of this CUP, prior to Zoning Clearance for Use Inauguration.

Monitoring and Reporting: The Permittee shall return a copy of the recorded “Notice of Land Use Entitlement” form and conditions of this CUP to Planning Division staff to be included in the Project file.

9. Financial Responsibility for Compliance Monitoring and Enforcement

- a. **Cost Responsibilities:** The Permittee shall bear the full costs of all County staff time, materials, and County-retained consultants associated with condition compliance review and monitoring, other permit monitoring programs, and enforcement activities, actions, and processes conducted pursuant to the Ventura County Non-Coastal Zoning Ordinance (§ 8114-3) related to this CUP. Such condition compliance review, monitoring and enforcement activities may include (but are not limited to): periodic site inspections; preparation, review, and approval of studies and reports; review of permit conditions and related records; enforcement hearings and processes; drafting and implementing compliance agreements; and attending to the modification, suspension, or revocation of permits. Costs will be billed at the rates set forth in the Planning Division or other applicable County Fee Schedule, and at the contract rates of County-retained consultants, in effect at the time the costs are incurred.

Establishment of Revolving Compliance Account: Pursuant to the requirements of CUP Case No. PL13-0126, the Resource Management Agency created Condition Compliance Case No. CC14-0007 to cover the costs associated with condition compliance review, monitoring, and enforcement activities, and any duly-imposed civil administrative penalties, regarding CUP Case No. CC14-0007. The Planning Division will continue to use Condition Compliance Case No. CC14-0007. to cover the costs associated with condition compliance review, monitoring, and enforcement activities described in subsection 9.a (above), and any duly-imposed civil administrative penalties regarding this CUP.

Within 10 calendar days of the effective date of the final decision approving this CUP, the Permittee shall submit a new, updated, and completed reimbursement agreement for Condition Compliance Case No. CC14-0007, in a form provided by the Planning Division, obligating the Permittee to pay all condition compliance review, monitoring, and enforcement costs, and any civil administrative penalties, subject to the Permittee's right to challenge all such charges and penalties prior to payment.

- b. **Billing Process:** The Permittee shall pay all Planning Division invoices within 30 days of receipt thereof. Failure to pay an invoice shall subject the Permittee to late fees and charges set forth in the Planning Division Fee Schedule, and shall be grounds for suspension, modification, or revocation of this CUP. The Permittee shall have the right to challenge any charge or penalty prior to payment.

10. Defense and Indemnification

- a. The Permittee shall defend, at the Permittee's sole expense with legal counsel acceptable to the County, against any and all claims, actions, or proceedings against the County, any other public agency with a governing body consisting of the members of the County Board of Supervisors, or any of their respective board members, officials, employees and agents (collectively, "Indemnified

- Parties”) arising out of or in any way related to the County’s issuance, administration, or enforcement of this CUP. The County shall promptly notify the Permittee of any such claim, action or proceeding and shall cooperate fully in the defense.
- b. The Permittee shall also indemnify and hold harmless the Indemnified Parties from and against any and all losses, damages, awards, fines, expenses, penalties, judgments, settlements, or liabilities of whatever nature, including but not limited to court costs and attorney fees (collectively, “Liabilities”), arising out of or in any way related to any claim, action, or proceeding subject to subpart (a) above, regardless of how a court apportions any such Liabilities as between the Permittee, the County, and/or third parties.
 - c. Except with respect to claims, actions, proceedings, and Liabilities resulting from an Indemnified Party’s sole active negligence or intentional misconduct, the Permittee shall also indemnify, defend (at Permittee’s sole expense with legal counsel acceptable to County), and hold harmless the Indemnified Parties from and against any and all claims, actions, proceedings, and Liabilities arising out of, or in any way related to, the construction, maintenance, land use, or operations conducted pursuant to this CUP, regardless of how a court apportions any such Liabilities as between the Permittee, the County, and/or third parties. The County shall promptly notify the Permittee of any such claim, action, or proceeding and shall cooperate fully in the defense.
 - d. Neither the issuance of this CUP, nor compliance with the conditions hereof, shall relieve the Permittee from any responsibility otherwise imposed by law for damage to persons or property; nor shall the issuance of this CUP serve to impose any liability upon the Indemnified Parties for injury or damage to persons or property

11. Invalidation of Condition(s)

If any of the conditions or limitations of this CUP are held to be invalid in whole or in part by a court of competent jurisdiction, that holding shall not invalidate any of the remaining CUP conditions or limitations. In the event that any condition imposing a fee, exaction, dedication, or other mitigation measure is challenged by the Permittee in an action filed in a court of competent jurisdiction, or threatened to be filed therein, the Permittee shall be required to fully comply with this CUP, including without limitation, by remitting the fee, exaction, dedication, and/or by otherwise performing all mitigation measures being challenged. This CUP shall continue in full force unless, until, and only to the extent invalidated by a final, binding judgment issued in such action.

If a court of competent jurisdiction invalidates any condition in whole or in part, and the invalidation would change the findings, and/or the mitigation measures associated with the approval of this CUP, at the discretion of the Planning Director, the Planning Director

may review the project and impose substitute feasible conditions/mitigation measures to adequately address the subject matter of the invalidated condition. The Planning Director shall make the determination of adequacy. If the Planning Director cannot identify substitute, feasible conditions/mitigation measures to replace the invalidated condition and cannot identify overriding considerations for any significant impacts that are not mitigated to a level of insignificance as a result of the invalidation of the condition, then this CUP may be revoked.

12. Consultant Review of Information and Consultant Work

The County and all other County permitting agencies for the Project have the option of referring any and all special studies that these conditions may require to an independent and qualified consultant for review and evaluation of issues beyond the expertise or resources of County staff.

Prior to the County engaging any independent consultants or contractors pursuant to the conditions of this CUP, the County shall confer in writing with the Permittee regarding the necessary work to be contracted, as well as the estimated costs of such work. Whenever feasible, the County will use the lowest responsible bidder or proposer. Any decisions made by County staff in reliance on consultant or contractor work may be appealed pursuant to the appeal procedures contained in the Ventura County Zoning Ordinance Code then in effect.

The Permittee may hire private consultants to conduct work required by the County, but only if the consultant and the consultant's proposed scope-of-work are first reviewed and approved by the County. The County retains the right to hire its own consultants to evaluate any work that the Permittee or a contractor of the Permittee undertakes. In accordance with Condition No. 9 above, if the County hires a consultant to review any work undertaken by the Permittee or hires a consultant to review the work undertaken by a contractor of the Permittee, the hiring of the consultant will be at the Permittee's expense.

13. Relationship of CUP Conditions, Laws and Other Entitlements

The Permittee shall implement the Project in compliance with all applicable requirements and enactments of federal, state, and local authorities. In the event of conflict between various requirements, the more restrictive requirements shall apply. In the event the Planning Director determines that any CUP condition contained herein is in conflict with any other CUP condition contained herein, when principles of law do not provide to the contrary, the CUP condition most protective of public health and safety and environmental resources shall prevail to the extent feasible.

No condition of this CUP for uses allowed by the Ventura County Ordinance Code shall be interpreted as permitting or requiring any violation of law, lawful rules, or regulations, or orders of an authorized governmental agency. Neither the approval of this CUP, nor

compliance with the conditions of this CUP, shall relieve the Permittee from any responsibility otherwise imposed by law for damage to persons or property.

The Permittee shall obtain/maintain a business tax certificate for the operation of the wireless communications facility. The certificate shall be prominently displayed at the Permittees' facility's business office for the life of the permit.

14. Contact Person

Purpose: To designate a person responsible for responding to complaints.

Requirement: The Permittee shall designate a contact person(s) to respond to complaints from citizens and the County which are related to the permitted uses of this CUP.

Documentation: The Permittee shall provide the Planning Director with the contact information (e.g., name and/or position title, address, business and cell phone numbers, and email addresses) of the Permittee's field agent who receives all orders, notices, and communications regarding matters of condition and code compliance at the CUP site.

Timing: Prior to the issuance of a Zoning Clearance for Use Inauguration, the Permittee shall provide the Planning Division the contact information of the Permittee's field agent(s) for the Project file. If the address or phone number of the Permittee's field agent(s) should change, or the responsibility is assigned to another person, the Permittee shall provide Planning Division staff with the new information in writing within three calendar days of the change in the Permittee's field agent.

Monitoring and Reporting: The Planning Division shall maintain the contact information provided by the Permittee in the respective project file. The Planning Division has the authority to periodically confirm the contact information consistent with the requirements of § 8114-3 of the Ventura County Non-Coastal Zoning Ordinance.

15. Resolution of Complaints

The following process shall be used to resolve complaints related to this project:

- a. The Permittee shall post the telephone number for the designated Contact Person as identified pursuant to Condition No. 14 in a visible location on the site. The Contact Person shall be available via telephone on a 24-hour basis. Persons with concerns about a use as it is occurring may directly contact the Contact Person;
- b. If County staff receives a written complaint about the Project, Planning Division staff may contact the Permittee's Contact Person or the Permittee to request information regarding the alleged violation.

- c. If, following a complaint investigation by County staff, a violation of Ventura County Code or a condition of this CUP is confirmed, County may initiate enforcement actions pursuant to § 8114-3 of the Non-Coastal Zoning Ordinance.

16. Change of Permittee and/or Property Owner

Purpose: To ensure that the Planning Division is properly and promptly notified of any change of property ownership or change of Permittee affecting the CUP site.

Requirement: The Permittee shall file, as an initial notice with the Planning Director, the name(s), address(es), telephone number(s), and email addresses of the new owner(s), lessee(s), operator(s) of the permitted uses, and the company officer(s). The permittee shall provide the Planning Director with a final notice once the transfer of ownership and/or operational control has occurred.

Documentation: The initial notice must be submitted with the new Property Owner's and/or Permittee's contact information. The final notice of transfer must include the effective date and time of the transfer, and a letter signed by the new Property Owner(s), lessee(s), and/or operator(s) acknowledging and agreeing to comply with all conditions of this CUP.

Timing: The Permittee shall provide written notice to the Planning Director 10 calendar days prior to the change of ownership or change of Permittee. The Permittee shall provide the final notice to the Planning Director within 15 calendar days of the effective date of the transfer.

Monitoring and Reporting: The Planning Division maintains notices submitted by the Permittee in the project file and has the authority to periodically confirm the information consistent with the requirements of § 8114-3 of the Ventura County Non-Coastal Zoning Ordinance.

17. Removal of Facility for Abandonment of Use or Expiration of Permit

Purpose: In compliance with § 8111-2.8 and § 8111-8.1 of the Ventura County Non-Coastal Zoning Ordinance and in order to ensure that the use of the subject property remains compatible with existing and potential uses of other property within the general area, the communication facility shall be removed if this CUP expires or if the facility is abandoned.

Requirement: Upon the expiration of this permit, or abandonment of the use, the Property Owner shall:

- a. notify the County that the Permittee has discontinued the use of the facility;

- b. remove the facility and all appurtenant structures;
- c. restore the premises to the conditions existing prior to the issuance of the CUP, to the extent feasible, as determined by the Planning Director.

In the event that the Permittee fails to perform the required actions, the Property Owner shall be responsible for compliance with the requirements set forth in this condition.

The facility shall be considered to be abandoned if it has not been in use for 12 continuous months.

Documentation: The Property Owner shall provide photos of the site after restoration is completed, to the County Planning Division.

Timing: The Property Owner shall complete the notification, removal, and restoration activities within 60 days of the expiration of this permit, or abandonment of the use, unless the Planning Director grants (in writing) additional time.

Monitoring and Reporting: The Planning Division has the authority to conduct periodic site inspections to ensure compliance with this condition consistent with the requirements of § 8114-3 of the Ventura County Non-Coastal Zoning Ordinance.

18. Future Collocation of Wireless Communication Facilities and Equipment

Purpose: To reduce the number of communication facilities and minimize the potential environmental impacts associated with such facilities.

Requirement: The Permittee shall avail its facility and site to other telecommunication carriers and, in good faith, accommodate all reasonable requests for collocation in the future subject to the following parameters:

- a. the party seeking the co-location shall be responsible for all facility modifications, environmental review, mitigation measures, associated costs, and permit processing.
- b. the Permittee shall not be required to compromise the operational effectiveness of its facility or place its prior approval at risk.
- c. the Permittee shall make its facilities and site available for collocation on a non-discriminatory and equitable cost basis; and
- d. the County retains the right to verify that the use of the Permittee's facilities and site conforms to County policies.

Documentation: Permittee shall demonstrate to the satisfaction of the Planning Director that the wireless telecommunications tower associated with the communication facility is engineered in a manner that can accommodate supplementary antennas to collocate at least one additional telecommunication carrier.

Timing: Prior to the issuance of a Zoning Clearance for construction, the Permittee shall submit evidence to the Planning Division that the facility is engineered to accommodate the collocation of at least one additional carrier.

Monitoring and Reporting: Prior to the issuance of a Certificate of Occupancy, Building and Safety inspectors and Planning Division staff have the authority to inspect the facility to confirm that is constructed as approved.

II. Environmental Health Division (EHD) Conditions

19. Hazardous Materials/Waste Management (CUPA Permit Required)

Purpose: To comply with the California Code of Regulations Title 22, Division 4.5, California Health and Safety Code chapter 6.95; and Ventura County Ordinance Code, and to ensure the safe storage, handling, and disposal of any potentially hazardous material and/or waste.

Requirement: The Permittee shall submit a Hazardous Materials Business Plan (HMBP) to the Environmental Health Division/Certified Unified Program Agency (Ventura CUPA) for storage of hazardous materials above reporting thresholds (200 cubic feet gas, 55 gallons liquid, 500 pounds solid). If hazardous wastes are generated, an EPA ID number issued by the California Department of Toxic Substances Control must be obtained and maintained in active status. Wastes identified as "non-hazardous" may require waste determination analysis to confirm if wastes are listed hazardous wastes, exhibits a hazardous characteristic through testing, or application of general knowledge.

Documentation: A completed HMBP must be submitted to the Ventura CUPA electronically through the California Environmental Reporting System (CERS). Maintain all records of hazardous waste determination testing and disposal and make available for review by this Ventura CUPA staff upon request.

Timing: HMBP must be submitted through CERS annually, and whenever there is a change to the type, quantity, or location of the hazardous materials. EPA ID number must be renewed annually.

Monitoring and Reporting: Verification of hazardous materials inventory as well as ongoing compliance with requirements shall be accomplished through field inspection by Ventura CUPA staff. Additional information on the storage and handling requirements for

hazardous materials and wastes may be found on the Ventura County Environmental Health Division/Certified Unified Program Agency website: <https://vcrma.org/cupa>

III. Ventura County Air Pollution Control District (VCAPCD) Conditions

20. Complaints Regarding Air Pollutant Discharges (odors, dust, etc.)

Purpose: To ensure that discharge of air contaminants (odor, dust, etc.) that may result from site operations are minimized to the greatest extent feasible.

Requirement: The Permittee shall operate the facility in accordance with the Rules and Regulations of the Ventura County Air Pollution Control District, with emphasis on Rule 51, Nuisance, which states:

A person shall not discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons or to the public or which endangers the comfort, repose, health or safety of any such persons or the public or which cause or have a natural tendency to cause injury or damage to business or property.

Documentation: No documentation is required for the purposes of this condition.

Timing: Throughout the life of the permit.

Reporting and Monitoring: Monitoring and enforcement of nuisance provision is enforceable by APCD on a complaint-driven basis.

IV. Ventura County Fire Protection District (VCFPD) Conditions

NOTICE IS HEREBY PROVIDED THAT THE SUBJECT PROPERTY (APN 064-0-010-015) IS WITHIN A MODERATE, HIGH, OR VERY HIGH FIRE HAZARD SEVERITY ZONE, AS DESIGNATED BY THE CALIFORNIA STATE FIRE MARSHAL, OR A LOCAL HAZARDOUS FIRE AREA, AS DESIGNATED BY THE VENTURA COUNTY FIRE DEPARTMENT.

21. Hazard Abatement

Purpose: To ensure compliance with Ventura County Fire Protection District Ordinance.

Requirement: The Permittee shall clear brush and maintain a brush clearance/defensible space zone adjacent to the footprint of all existing and new structures up to 100 feet, or the property line if less than 100 feet. Brush shall be cleared to 10 feet from all access roads, driveways, and turnarounds servicing the structure, or as otherwise required by the Ventura County Fire Protection District.

Documentation: A signed copy of the Ventura County Fire Protection District's Form #126 "Requirement for Construction" or the "Notice to Abate" issued under the Fire District's Hazard Reduction Program.

Timing: The Permittee shall remove all grass and brush as outlined before the start of construction of any structure.

Reporting and Monitoring: The VCFPD shall conduct on-site inspections to ensure compliance with this condition.

DRAFT
