As required by State law and the State Department of Housing and Community Development, the County of Ventura has initiated **Program HE-Z – ADU Monitoring** from the State-certified 2021-2029 Housing Element, which requires that the County track all new Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs) and collect information on the use and affordability of these units. Halfway through the 2021-2029 planning period (i.e., in 2025), if it is determined that these constructed units are not meeting a need for lower income housing, the County shall ensure other housing sites are made available to accommodate the unmet portion of its lower-income Regional Housing Need Allocation (RHNA)¹. This information is only being collected to address the program requirements and will not be utilized or published in any other manner.

The County of Ventura - Planning Division greatly appreciates your assistance in providing an estimation on the use and affordability of your proposed ADU or JADU.
